**FIRS ANNOUNCEMENT
10. Seed Days of the Region**

Cooperation in the region and traditional Seed Days of the Region were launched by the Seed Association of Serbia, 10 years ago, aimed at improving the seed sector in the region, harmonization of the regulations and promotion of the seed trade.

This year, the Seed Association of Serbia is hosting the “10. Seed Days of the Region”, which will be held on June 7-9, 2023. 10 years of this conference shows importance and need for cooperation in the seed sector in the region. Following all current topics in the seed industry and the seed market, at the international level, especially within the European Union, the message of this year's conference is **„Growing the Future – Bringing together the players of the Agri-Food Chain”**.

The Conference topic is the current issues of the seed sector, including entire food production value chain. In addition to representatives of the Ministries of Agriculture and National Seed Associations, the participants will be from leading seed companies in the region, and bilateral meetings will contribute to the importance of the conference, as well as establishing cooperation and business contacts.

Given the importance of agriculture and the seed sector for all countries in the region, we are pleased to invite you to attend the “10. Seed Days of the Region” and to contribute to finding solutions to all challenges in the seed sector and agri-food chain.
